Claims 13-18 are allowed.

Claims 3, 4, 6, 9, 10 and 12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 2, 5, 7, and 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Silverman et al in view.

Silverman et al discloses an anchor comprising an hour glass shaped solid body having a central bore, a disc (86) fastened to a top portion on the body, said disc having a diameter greater than the outer diameter of the body and a cap member (56, 66) fastening the disc (86) to the top of said body.

In regard to claim 5 note washer 84.

Silverman et al however fails to disclose his device wherein it includes a flexible disc.

Sherman however discloses washers manufactured of plastic (121).

Given the above teaching the examiner notes that it is well known and would have been obvious to one of ordinary skill in the art to manufacture the washer (86) of Sherman et al of plastic and that it is well known that plastic washers are flexible.

Art Unit: 3739

Claims 7-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is not clear in claims 7-12 as to whether or not the applicant is claiming "positively" an exercise device and the springs".

The claims have been examined as if the exercise device is not being claimed.

In claim 13 the pre-amble is structured as if the exercise device is being claimed, and examined as if the exercise device and springs are being claimed.

Any inquiry concerning this communication should be directed to David Shay at telephone number 308-2215.
